

## CONTENTS

<b>ABSTRACT</b> .....	1
<b>SUMMARY</b> .....	2
<b>DISCLAIMER</b> .....	4
<b>SECTION I – GENERAL REVIEW</b> .....	8
Introduction .....	9
Dynamic testing of ground support .....	11
Terms and definitions .....	14
Technical data on ground support tendons .....	14
Static behaviour of support tendons .....	16
Dynamic behaviour of support tendons .....	20
Notes on accessories, resin and cement grouts, and corrosion .....	21
Gaps and limitations – Proposed road map .....	25
Closing remarks .....	28
Acknowledgements .....	29
Bibliography .....	29
Quoted references .....	29
Non-quoted references .....	36
<b>SECTION II – TECHNICAL INFORMATION DATA SHEETS</b> .....	38
1. Standard Mechanical Bolt .....	39
2a. Cement Grouted Rebar .....	40
2b. Resin Rebar .....	41
3. Resin or Cement Grouted Threadbar .....	42
4. Duraset® Cone Bolt (SA) .....	43
5a. Modified Cone Bolt (NTC) – MCB33 .....	44
5b. Modified Cone Bolt (NTC) – MCB38 .....	45
6. Durabar™ Yieldable Bolt (SA) .....	46
7. Roofex® Yieldable Tendon .....	47
8. Split Set™ Friction Bolt .....	48
9. Swellex® Friction Bolt – Mn12 .....	49
10a. Cement Grouted Plain Cable (single strand) .....	50
10b. Cement Grouted Birdcage Cable (single strand) .....	51
11a. Standard Flat Bearing Plate .....	52
11b. Standard Domed Bearing Plate .....	53
12a. Conbextra® Cement Grout .....	54
12b. Portland® Type 10 Cement Grout .....	55
12c. Fasloc® Polyester Resin Grout .....	56
13. Other .....	57

**SECTION III – TESTING FACILITIES AND PROCEDURES ..... 58**

- 1a. CANMET-MMSL Bells Corners Laboratory – Static testing ..... 59
- 1b. CANMET-MMSL Bells Corners Laboratory – Dynamic testing..... 60
- 2. CSIR (SA) Natural Resources and Environment Unit – Dynamic testing ..... 61
- 3. Luleå University of Technology – Static testing..... 62
- 4. SRK/Duraset® Wedge-Block Loading Device – Static and Dynamic testing ..... 63
- 5. Western Australian School of Mines (WASM) – Dynamic testing..... 64

**SECTION IV – REFERENCE BOOKS AND CONFERENCE PROCEEDINGS**

**(1982-2008) – A critical review** (*In progress – To be released at the beginning of year 2009*)..... 65

**Introduction**

First International Symposium on Rock Bolting, August-September 1983, Abisko, Sweden

Second International Symposium on Rock Support, June 1992, Sudbury, Canada

Third International Symposium on Rock Support, June 1997, Lillehammer, Norway

Fourth International Symposium on Ground Support, March 1999, Kalgoorlie, Australia

Fifth International Symposium on Ground Support, September 2004, Perth, Australia

Sixth International Symposium on Ground Support, March-April 2008, Cape Town, South Africa

First International Congress on Rockbursts and Seismicity in Mines, September 1982, Johannesburg, South Africa

Second International Symposium on Rockbursts and Seismicity in Mines, June 1988, Minneapolis, USA

Third International Symposium on Rockbursts and Seismicity in Mines, August 1993, Kingston, Canada

Fourth International Symposium on Rockbursts and Seismicity in Mines, August 1997, Krakow, Poland

Fifth International Symposium on Rockbursts and Seismicity in Mines, September 2001, Hartbeespoort (Pretoria), South Africa

Sixth International Symposium on Rockbursts and Seismicity in Mines, March 2005, Perth, Australia

First International Seminar on Deep and High Stress Mining, November 2002, Perth, Australia

Second International Seminar on Deep and High Stress Mining, February 2004, Sandton, (Johannesburg), South Africa

Third International Seminar on Deep and High Stress Mining, October 2006, Quebec City, Canada

Fourth International Seminar on Deep and High Stress Mining, November 2007, Perth, Australia

## TABLES

1. Technical terms and definitions.....	15
2. List of static test programs carried out on ground support tendons since 1985 .....	18
3. Summary of dynamic test programs carried out on ground support tendons since 1990.....	22
4. List of dynamic test programs carried out on ground support tendons since 1990.....	23

## FIGURES

1. Effects of dynamic loading on standard and yielding ground support.....	9
2. Concepts of static and dynamic testing .....	13
3. Load-deformation results obtained by Stillborg in tests carried out at Luleå University of Technology, Sweden .....	17
4. Energy-absorbed and displacement-at-interface results obtained in tests carried out at Western Australia School of Mines, Australia.....	22
